

„Super-Season 2020 / 2021“

Foreword

Due to the circumstances, for the first time in the history of the “LMP Pro Series”, not all teams were able to attend the races. Ultimately, we were able to drive three individual events over 2 years, so we decided to create an overall ranking for the teams that started, without official championship status.

Race 1 – Lüttich – Hobby 2000 / Slot 4000

At the beginning of September 2020 we went to Hobby2000 / Slot4000 in Liège Slot4000 with its third “LMP Pro Series” race is now also an experienced host, so nothing was missed.

5 of the 13 cars in the grid were from 2020. Wow - it couldn't be more up-to-date! The qualification on the diced lane 1 brought some surprises.

As expected, "Hobby 2000 Junior" took a clear victory on their home track.

But already in 2nd place we had the first big surprise with "GP Slotracing", as well as the strong 6th place of "el.Dude".

Result Qualification Race 1:

Position	Team	Time
1	Hobby 2000 Junior	6,690
2	GP-Slotracing	6,782
3	Team Hobby 2000 by D&G	6,822
4	Plastikquäler 1	6,885
5	DSCA 2	6,912
6	el.Dude Fa.R.T	6,917
7	Dephi Racing	6,924
8	DSCA 3	6,964
9	Mac Racing by Joker	6,976
10	SRCB	6,979
11	DSCA 4	6,995
12	DSCA 1	6,998
13	Bel Slot	7,076

The race for victory was decided almost from the start. With a damn fast Lola, over the race distance nobody was able to follow "Hobby2000 Junior". Only "DSCA2" was able to keep up in the first heat of the race and was so on a secure 2nd place. Unfortunately, a major light repair made the team fall far behind during the night. The battle for 2nd place between "Hobby2000" and "Plastikquäler" continued over the complete race. In the last heat, bad luck struck "PQ". Unfortunately, the duel was not decided directly on the track but through a crash – that's racing. With four teams, "DSCA" was incredibly well represented and ended up taking 4th and 5th place and 9th and 10th place.

"Mac Racing by Joker" showed a strong race without any major mistakes, but was narrowly beaten by "DSCA 2" – 6th place.

"Dephi Racing" was able to confirm the good form from the qualification and again achieved a great 7th place just a few laps ahead of "SRCB". The race was simply too short for "Bel Slot" in 11th place. In the third race, the team advanced to 6th place! "GP-Slotracing" and "el.Dude" had a used weekend. After the strong qualification, both teams couldn't get their cars running, with the over night unusually increased grip on track and found themselves at the end of the field.

Race 2 – Slotracing Mülheim

At the beginning of September 2021, a year later, we finally went to Mülheim for the 2nd race.

If it goes to Mülheim, Thomas must be highlighted in addition to the obligatory thanks to all helpers. Without all his helopt for the "LMP Pro Series", for all races, many things would be much more difficult! Thanks for your help!

Everyone was looking forward to meet again and curious what would be possible Lane 1 was diced again for qualification. More excitement and tighter is not possible! Place 1 and 2 separate 0.001s. 3rd, 4th and 5th place also only 0.005s.

Winner "Hobby 2000 Junior" ahead of "Plastikquäler", "Hobby 2000", "DSCA1" and "GP-Slotracing".

Result Qualification Race 2:

Position	Team	Time
1	Hobby 2000 Junior	6,650
2	Plastikquäler 1	6,651
3	Team Hobby 2000 by D&G	6,711
4	DSCA 1	6,713
5	GP-Slotracing	6,718
6	Mac Racing by Joker	6,733
7	DSCA 2	6,781
8	Hobby Hobby	6,851
9	ProSpeed	6,891
10	el.Dude Fa.R.T	6,933
11	Dephi 4	7,245

In the race, "Plastikquäler" got a good lead in the first run and managed it skilfully during the night and on the 2nd day - a deserved victory. "Hobby 2000 Junior" and "Hobby 2000" were able to keep up the pressure on "PQ" to the end and fought each other at the same time for 2nd place. "Hobby Hobby" completed a strong team result with 5th place.

"Mac Racing by Joker" was not able to fully participate in the podium fight, but at the same time had everything under control behind - 4th place. "GP-Slotracing" did not give up and was able to stay in the first starting group - 6th place. "DSCA" said they didn't have enough time to prepare, which unfortunately took its toll on the result. Place 7 and 10 is definitely behind the possible. With "ProSpeed" a new team was at the start. After a bad qualification, the "PQ" rental car advanced to fourth place in the first race, even the podium seemed to be possible. During the night, a broken ball bearing ruined all hopes of a top position - 8th place. "El.Dude" made a strong impression in training, but unfortunately a little bit of speed was missing in the race, so it was 9th place overall. Let's see whether the problem can be solved by the next race. Unfortunately, "Dephi 4" only came in 11th this time with little track knowledge and a not ideal setup.

Race 3 – Raceway Park Siegburg

After a break of just around two months, in Siegburg the “LMP Pro Series” drove the third and final race of the "Super Season 2020 / 2021". For the first time in the history of the "LMP Pro Series" a new track has been added to the calendar.

The Siegburg Slotracing Club showed themselves to be great hosts. Track, workstation, catering, ..., everything was well organized and prepared.

The track layout turned out to be perfect for the fast “LMP Pro Series” cars.

“Super Season” is the season of outside lanes for qualification. After lane 1 twice in a row, now lane 6 was diced.

Gilles for "Hobby2000" drove according the motto "All or nothing". The result was several mistakes but also a hell of a time that nobody could follow.

The podium in qualifying was completed by Kai-Ole for "PQ" and Ralf for "ProSpeed".

Result Qualification Race 3:

Position	Team	Time
1	Team Hobby 2000 by D&G	7,531
2	Plastikquäler 1	7,564
3	ProSpeed	7,607
4	GP-Slotracing	7,701
5	DSCA Academy	7,746
6	Slotracing Mülheim	7,787
7	DSCA 1	7,799
8	Hobby 2000 Junior	7,823
9	DSCA 2	7,850
10	el.Dude Fa.R.T	7,889
11	Bel“air Racing	7,918
12	Pina´s Garage	8,158

From sheer speed, at least five different teams could have won this race. Right from the start, "PQ" cleverly played his only trump card - consistency - and was able to win deserved in the end. Even a new name doesn't change the fact that this team is getting stronger with every minute of racing. Deserved victory for "DSCA Academy" in the 3rd heat and so moved up to 2nd place overall. And this with a cup car from the "Belgian Endurance Series" - congratulations. Third place went to "Hobby2000 Junior". After problems with the power consumption, Thomas and Martin fought their way into the race. Unfortunately, while "DSCA Academy" got stronger and stronger, the rebellion of "DSCA1" loose speed over the race distance - 4th place. "ProSpeed" had again good podium chances in their second race, now with their own car! Unfortunately, a loose screw on the rear spring stopped their strong pace a bit - 5th place. A team from the very beginning of "LMP Pro Series", so it's a pity that a regular driver could not show. With little knowledge of the track and no major problems, "Team Hobby 2000 by D&G" finished 6th. "GP-Slotracing" once again showed that the basic performance is there to be at the top of the grid, but especially in the "LMP Pro Series" it's just very difficult to get everything on point for the race.

"DSCA2" and "el.Dude" fought a super close fight. In the second day race, Bert and Gabe caught up lap after lap. Ultimately, however, Gunther and Benjamin were able to keep their noses in front (8th and 9th place).

"Slotracing Mülheim", 10th place, were allowed to bring the old Lola to the start for the last time - just like in 1:1 motorsport by special permission. We heard, two brand new Mazda DPis are in progress.

We were very happy about our first Portuguese starters in the "LMP Pro Series". Unfortunately, the vehicles for both "Pina's Garage" and "Bel'air Racing" did not run as hoped (10th and 11th place).
